答题模板：

My favorite subject is math. In this course, we mainly learn about numbers, shapes, and how to solve problems using different methods. We study topics like addition, subtraction, multiplication, division, fractions, and basic geometry. From this course, I have learned how to think logically and solve problems step by step. It has also taught me to be patient and careful with my work. The biggest benefit of this course is that it helps me understand the world better because math is everywhere in daily life, like when shopping or measuring things. It has also improved my ability to focus and think clearly.
